Subject: RE: Industry Interaction Meeting

Dear Claire,

I have attached a document with the spreadsheets indicating where a member from PM USA attends either Working Groups/Task Forces or Industry Organization meetings. I have also included where they are located (i.e. Richmond, Hong Kong, Neuchatel).

I did not include this information for Professional Societies where our scientists are members. If this information is also needed, please let me know.

According to your note, the next step is for you to arrange a meeting to discuss each of the meetings.

If you need anything further, please let me know.

IndustryOrganizations-WorkingG..,

Loreen

My note was not entirely clear. To clarify - will you please provide me and Kevin with a list of the groups or meetings with scientists where PM USA is a member or represented?

Importance: High

As a follow-up to our meeting (and further to my and Kevin's discussions with Even and Marty), will you please provide me and Kevin with a list of all the industy meetings in the U.S. that are attended by individuals in your organization. The below attachments may or may not be comprehensive. After the list is prepared, we plan to:
(i) set up a meeting with you and whomever you designate to discuss each of the meetings,
(ii) seek your input regarding ongoing business desire to continue attending each of these meetings, and
(iii) set up next steps for providing legal advice regarding those meetings you identify as having an ongoing business need.

Let us know if you have any comments on this approach.
Thanks for your help.
